## DON PASCUAL LIMITED EDITION

A line of three cuvées of confidential production, each one the result of a unique story. Through The Founder's Collection, you will learn more about the tastes of the members of the Deicas Family. The Winemaker's Selection reflects the winemaker's expert perception of the harvest. Last but not least, with Don Pascual Single Barrel, you will experience a unique taste: the concurrence of wine and barrel, without prior assemblage.

## FOUNDER'S COLLECTION

The Founder's Collection was born in 2007, as a tribute to Juan Carlos Deicas on his 70th birthday. Different collections are created each year in three specially selected barrels per collection. Each collection produces just over 800 unfiltered bottles.

---

### Secrets of the Winemaking

Three tastings. The selection of the 3 barrels for each collection is the result of 3 tastings. At each tasting, the committee notes the typicity and personality of each wine. The synergies that arise from the different blend possibilities are also tested and the best assemblage is chosen.

Custom aging. Each collection has custom oak aging. Some wines require longer contact with the oak than others. Therefore, with the aim of attaining the highest quality, the aging time is unique for each barrel, and therefore, each collection.

Unfiltered. The wines selected for the Founder's Collection are bottled unfiltered. This ambitious decision is applicable for this line because the aging time is long enough for the wine to clarify naturally. The wine therefore maintains all positive contributions to its aroma and texture.

---

### Service and Consumption

Don Pascual Founder's Collection wines are red wines of very high quality, concentrated and powerful. The ideal serving temperature is 18 - 20°C (64 - 68°F), to go with flavorful dishes such as roast lamb.
